## NEW! Now with Galileo ready receiver!

Satconsystem now offers a next generation complete system for fieldnavigation, surveying and track recording.

The HP IPAQ PDA as well as the already Galileo ready 50 channel 5 Hz GPS receiver are state-of-the-art. The whole system is balanced and optimized for the use of our software.

### Important features:

- large 4" Touchscreen
- fast 624 Mhz CPU
- Integrated 802.11b/g WLAN
- Galileo ready

- 5 position updates per second
- 50 channel reception
- WAAS / EGNOS capable
